FORNICE 2025

A rear view of a HAMM roller. The machine features a large, cylindrical steel drum at the bottom, which is heavily coated with dark brown mud. Above the drum is a black metal bumper bar. The upper body of the machine is painted bright orange and has the word "HAMM" printed in large, bold, black capital letters. On either side of the drum, there are grey plastic housings containing dual round headlights (one white, one red) and a smaller amber light. A small white rectangular label with a black icon is visible on the orange body to the left of the "HAMM" text. The machine is parked on a gravel surface, and a red plastic container is visible in the background to the right.
